

About

Inspired by Outback Steakhouse®, Aussie Grill® features a chef-driven menu with big, adventurous flavors and innovative menu items prepared in under four minutes. With younger, family-focused, and convenience-seeking guests in mind, the unrivaled menu variety is unlike any other fast-casual restaurant.

The first Aussie Grill opened internationally in 2019 in Saudi Arabia, Hong Kong, and the U.S. The brand's quick popularity inspired accelerated growth in the U.S. and abroad.

Menu

Aussie Grill's flavorful and indulgent menu includes a variety of sandwiches, burgers, large plates, and salads that are scratch-made from the highest quality ingredients.

The international menu includes nearly all items offered in the U.S. locations, with a few locally-inspired recipes to please local tastes. A favorite across the globe is the Crispy Sriracha Chicken Sandwich, a hand-breaded chicken breast topped with a tangy, sweet, and spicy sauce.

Restaurant Design

Aussie Grill offers convenient, fast, and genuinely friendly service in a fun environment. The design incorporates a mixture of exposed brick, wood, metals, and graphic art that brings the adventurous spirit of Australia to life.

With a small and flexible footprint, the restaurant is ideal for venues of all shapes and sizes – from food halls to free standing and non-traditional locations.
